Program 2

Write Assembly Language Program to read your family name and SID. In the family name only the first letter is capital. On the first row of a clear screen print your name and SID. On the second row, of the same screen, display your name in capital case. On the third row display your SID in inverse order. On the forth row print the ASCII code of your SID.

Due date and time: April 14, 2008. The carrier of your program must be on my desk in the beginning of the class.

Submit the following files on a floppy disk or CD: **Prg2_LID.ASM, Prg2_LID.LST, Prg2_LID.OBJ, Prg2_LID.EXE. The notation LID means your list ID number for this class.**

Extra features will be granted with extra points.
